

Water Fluoridation Quality Award

CITY OF COOPERSTOWN

North Dakota

The Centers for Disease Control and Prevention (CDC)'s support for community water fluoridation is based on more than 75 years of experience and research to show that water fluoridation is safe and effective for promoting good oral health. CDC commends this water system for providing high-quality water fluoridation for 12 consecutive months in 2022 representing a high level of operator care and accomplishment.
